PROFILE

A Computer Science student with hands-on experience in Data Science through an internship at Prinston Smart Engineers. Skilled in predictive modeling, data analysis, and programming. Active Rotaract member with strong communication, teamwork, and leadership abilities.

SKILLS

Technical: Python, SQL, HTML, CSS, JavaScript, C, C++, Java, DBMS
Tools: Data Cleaning, Feature Engineering, Visualization
Soft Skills: Communication, Teamwork, Adaptability, Creativity, Active Listening

EXPERIENCE

Prinston Smart Engineers – Data Science Intern

- Built predictive models to estimate fair market diamond prices.
- Performed data cleaning, feature engineering, and EDA to improve model accuracy.
- Identified key pricing factors supporting data-driven decisions.

PROJECTS

Diamond Price Prediction (Data Science Project)

- Analyzed diamond dataset to identify major price determinants.
- Created machine learning models to predict prices.
- Improved dataset accuracy through preprocessing and visual exploration.

EDUCATION

Bachelor of Computer Applications — Bangalore University (2023–Expected 2026) | Grade: 8.55
